

## Páskování hliníkových prefabrikátů PET páskou

**General data:** Pack size: W 500-1100 x L 800-6000 x H 200-800mm  
( W20"-45" x L30"-236" x H 8"-30")  
Weight: approx: up to 3000kg (6600lb's)

**Current Packaging:** multiple straps including wood bearers  
Steel Strapping zinc coated

**New Packaging:** multiple straps including wood bearers (same strapping pattern  
as with steel strapping)  
Polyester Strapping

**Test with Automatic** P350 (turbo), P356  
PM100200 (top seal high tension strapper including bearer  
feed)  
(normally integrated into automatic stacking system)

- Benefit of new packaging:**
- Packs remain compact (high retained strap tension)
  - Lower consumables costs
  - No rust (Image, Labor cost for cleaning rust before further processing)
  - Strap remains tensioned also after shrinkage of green wood bearer
