

Páskování hliníkových desek PET páskou

General data:	Pack size: W 500-2400 x L 2800-8800 x H 300-800mm (W 19"-95" x L 110"-346" x H 12"-32") Weight: approx: up to 36000kg (80'000lb's)
Current Packaging:	Most of the slabs are in T-bar shape. This T-bar shape allows to handle the product by fork lift. The forks are engaged in length direction, which limits the length of the slab
New Packaging:	The slabs are not in T-bar shape any more. To handle the slabs by fork lift a bunk or bearer is strapped in. This also allows you to stack the product easier in the warehouse as well as in containers and open vessels. (more products and fewer voids) Strapping: PET
Manual Test with	P321/ P323 (tools discontinued new tools P325/ P350 / P356
Automatic	PM100000 (top seal high tension strapper with automatic bunk feed system)
Benefit of new packaging:	<input type="checkbox"/> Easier handling <input type="checkbox"/> More tonnage per shipping unit <input type="checkbox"/> Longer products <input type="checkbox"/> Strap remains tensioned also after shrinkage of green wood bearer
